Microlearning

Your district managers and regional leaders need an increasingly sophisticated level of skills, strategies, and tools to drive business results. **Retail Multiunit Management** is a comprehensive blended learning solution addressing the critical issues and leadership behaviors that get to the core of what impacts the business.

RMM combines technology-based microlearning and online skill-building with interactive, real-life, scenario-based modules to:

- Jumpstart development and insight-building prior to classroom or virtual training
- Engage busy retail leaders
- Ensure long-term retention and application

This personalized, performance-based approach to learning is optimized for the realities of the modern retail environment and designed to deliver direct and measurable business impact.

MODULES

Leading Change

DMs are often the lead communicator on company initiatives, but not every one of their store managers or other field leaders are immediately on board.

Participants learn how to search out levels of commitment and devise communication strategies for getting everyone on board with the change.

Turning Feedback into Change

Retailers use a variety of generic or custom tools to provide 360° feedback and/or gauge customer satisfaction.

Participants learn how to best share that feedback with their team in a productive way while enabling them to leverage whatever the feedback is in the most positive approach. *Use MOHR Retail's DiSC® 365 feedback tool, Store Visit Effectiveness Survey, or your existing feedback and analysis tool.*

Influencing for Results

DMs often have to work with and persuade third party and/or HQ representatives to adjust priorities or support them in the field.

Participants learn an effective strategy for building trust and influencing others.

Communicating for Success

Today's leaders must develop skills to enhance their competence and credibility across their companywide relationships.

Participants explore what it takes to be a leader and demonstrate leadership presence, and how to build credibility and a reputation as a leader across the organization.

Peer Ideation

DMs frequently struggle with operational and marketing issues that have little to do with leadership.

DMs receive structured feedback and participate in idea-building with peers who may be able to come up with solutions to the DM's business challenge that they haven't thought of or that worked for others in similar situations.

Advanced

Each Advanced topic is facilitated in a 3 ½-hour virtual or onsite instructor-led classroom workshop.
